Projects

Kaiwan Pharma (e-commerce)

Excited to showcase my latest project: Kaiwan Pharma E-commerce Site Developed a full-stack e-commerce platform using **Next.js**, **Tailwind CSS, MongoDB, and Redux Toolkit**. The site enables users to browse and purchase various pharmaceutical products, featuring dynamic content management, responsive design, secure user authentication, and seamless checkout integration with multiple payment options.

Live Link: https://kaiwanpharma.com/

GMGC Site (Frontend Clone)

Created a fully responsive frontend clone of my college website using ReactJS and Tailwind CSS, ensuring compatibility across all devices. Implemented dynamic components, optimized loading performance, and improved accessibility for a seamless user experience.

Portfolio Site

This is my personal portfolio website featuring a stunning design and captivating animations. The site is fully responsive, ensuring an optimal viewing experience across all devices. I developed this project using ReactJS for the dynamic components, Tailwind CSS for a sleek and responsive layout, and implemented smooth animations with Framer Motion to enhance the overall user experience. I'm proud to showcase my skills through this showcase of creativity and technical proficiency.
